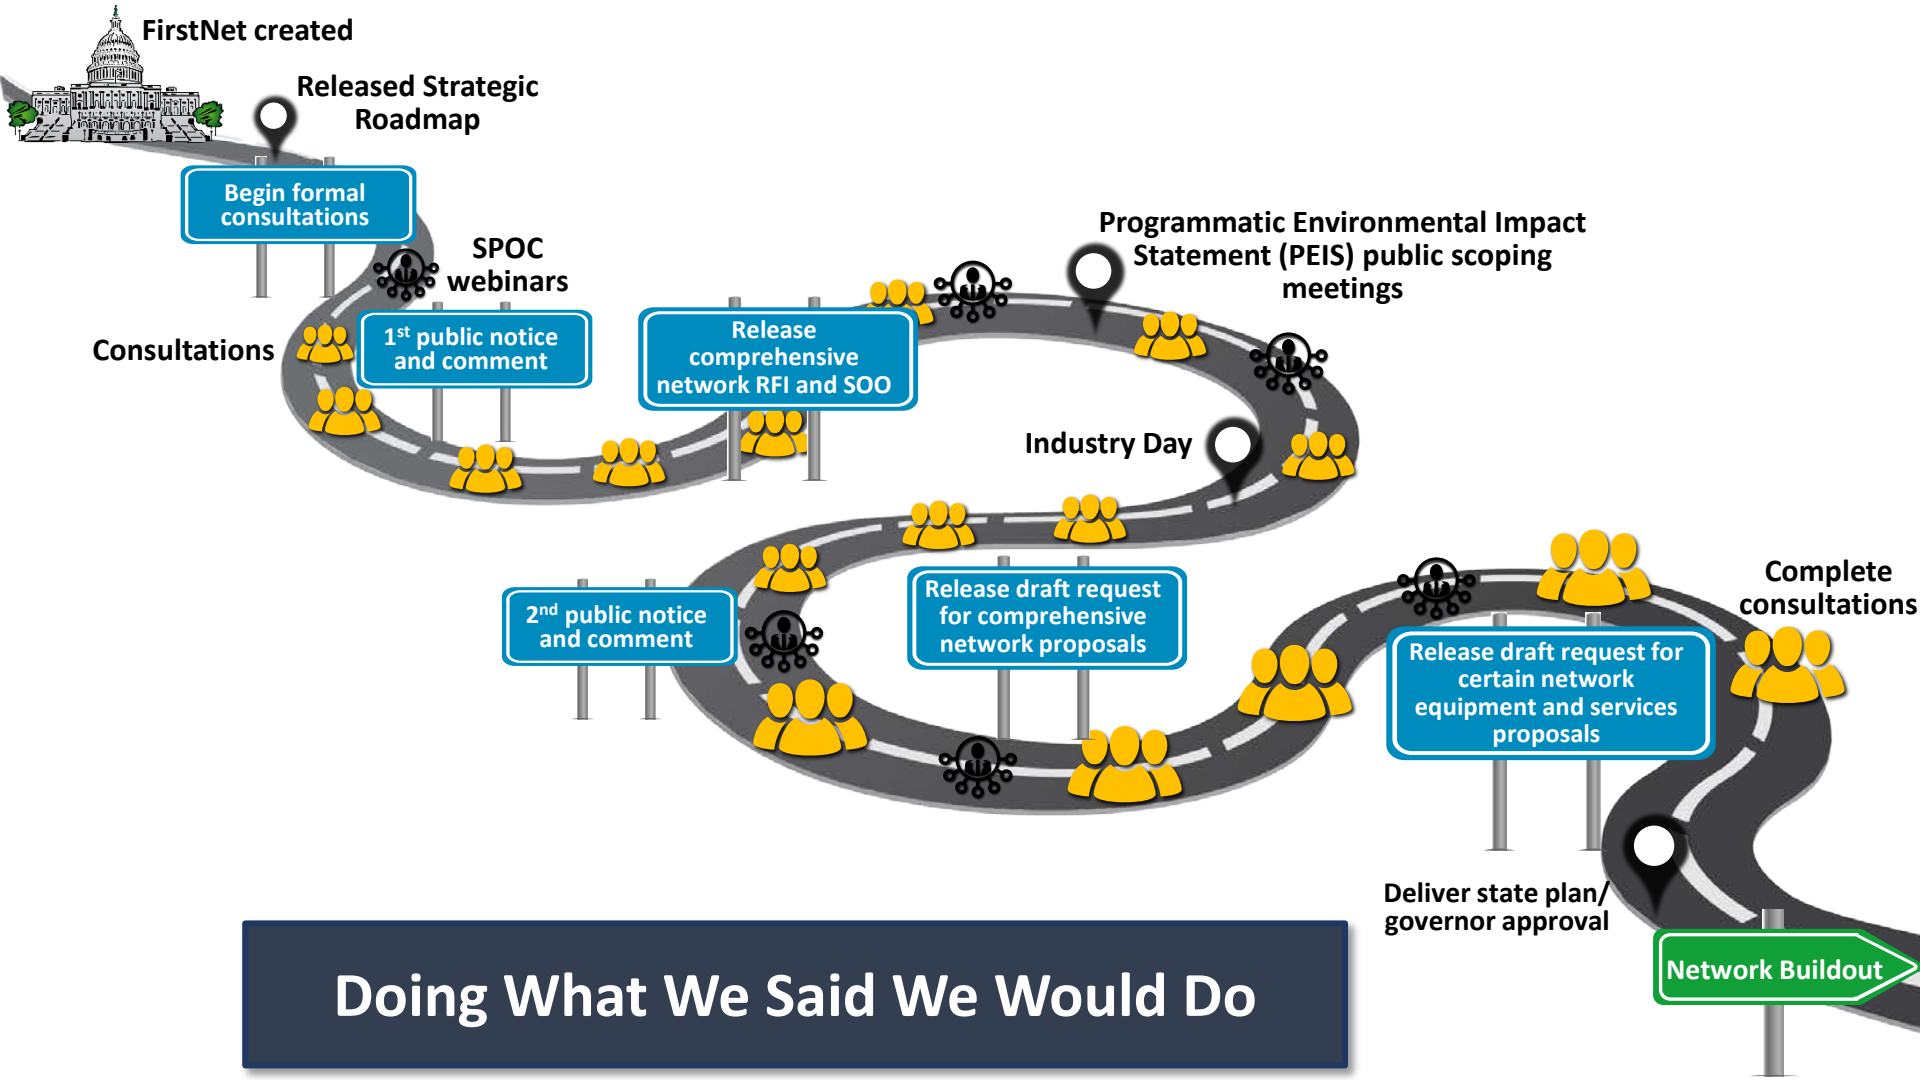
Strategic Roadmap Update

TJ Kennedy
Acting General Manager

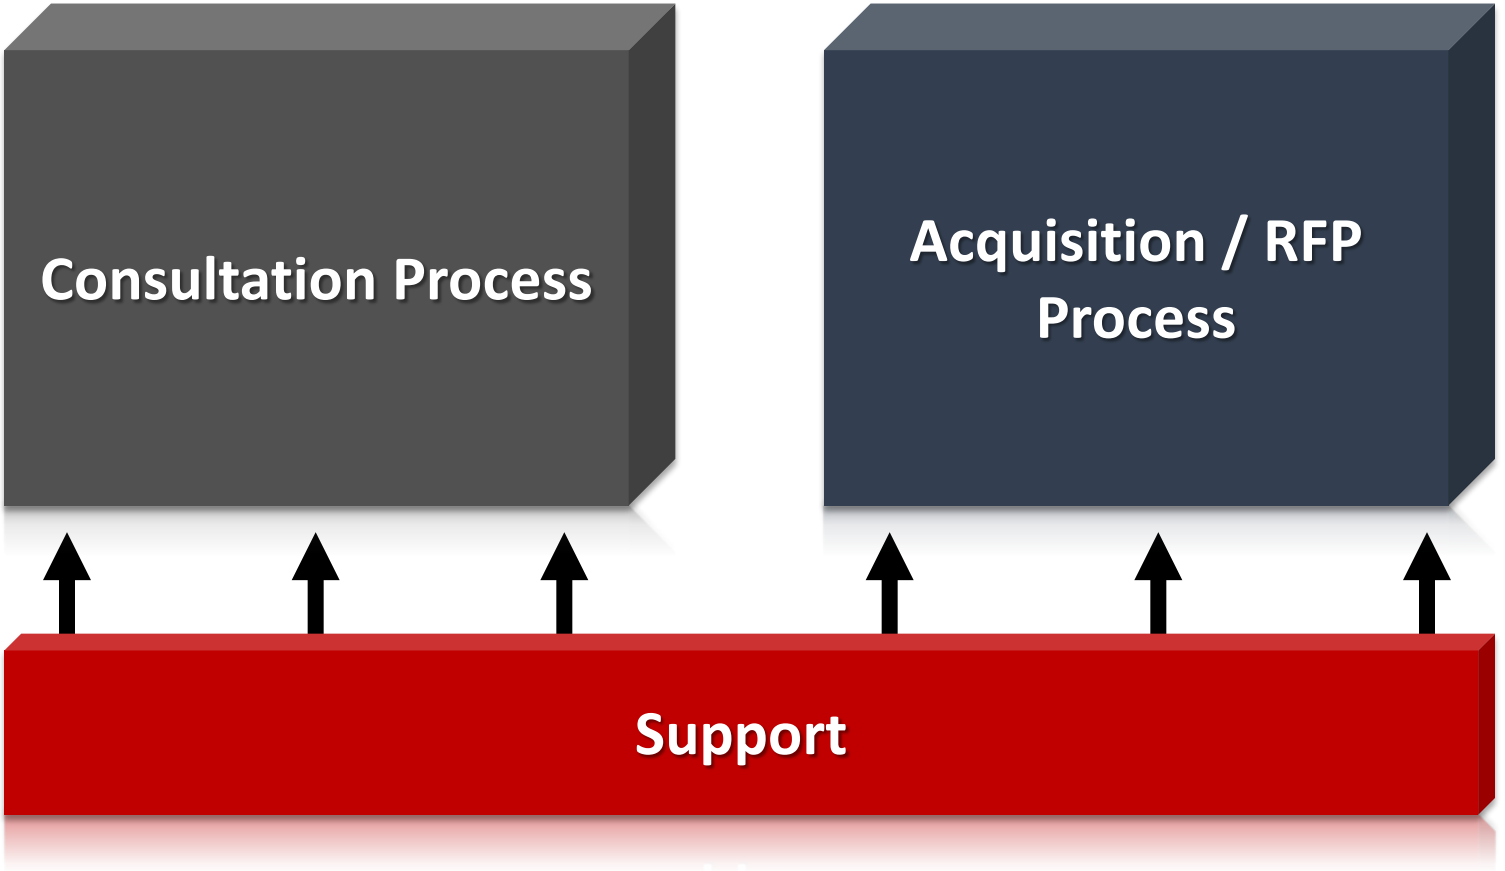
December 10, 2014

Current Roadmap Snapshot



Doing What We Said We Would Do

FirstNet's Focus



Sustainability

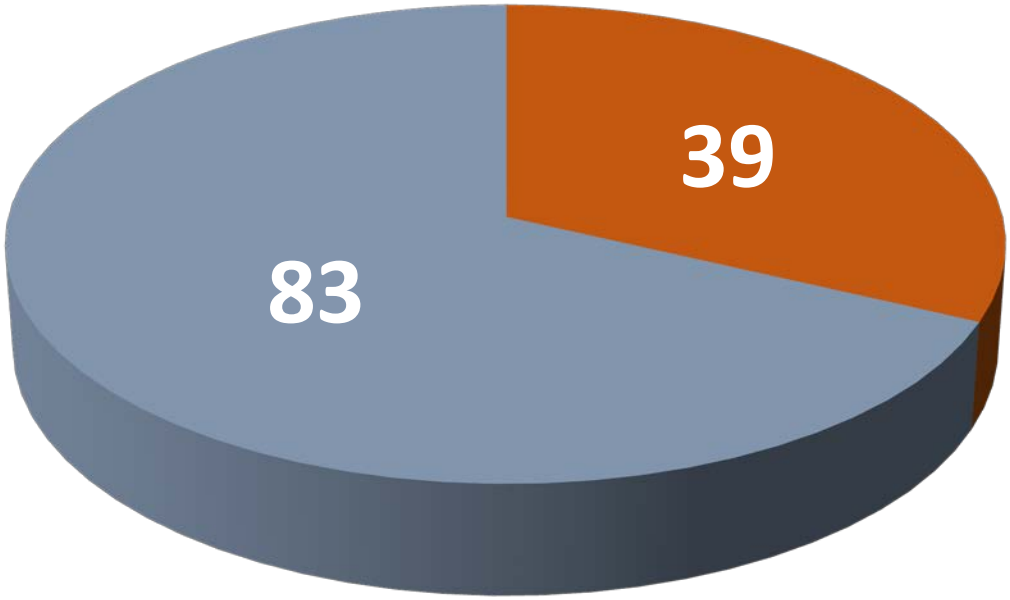
AWS Auction Implications

- Vigorous bidding in the ongoing AWS-3 auction strongly supports our strategic roadmap
- Potential winning bids in this auction may total more than $37+ billion
- This exceeds the FCC's reserve price for the spectrum and ensures that FirstNet will receive full funding of $7 billion
- Also, the values of the AWS-3 licenses have risen and continue to rise well beyond expectations
- These values bode well for the value of FirstNet's better-propagating spectrum

RFI and Public Notice and Comment Outcome

RFI and SOO Recap

122 Total Responses to RFI (3,000 + pages)



RFI and Public Notice and Comment Recap

- RFI/SOO and the Public Notice responses came from state and local governments; major public safety organizations and trade associations; and some private sector parties, including communications vendors and carriers serving both rural and non-rural areas

- Received extensive feedback on how best to structure our acquisition strategy for deploying an interoperable nationwide public safety broadband network

Public Comment and Notice:
63 public responses received by October 27 deadline

Consultation

Updated Consultation Approach
